CONGRESSMAN HANDS OUT AGAINST RECIPROCITY. WARM REPLY TO MEYER. Naval Academy Snobbery the Subject of an Animated Controversy.

Ottawa. April 26.—The following statement was made by R. L. Borden, the opposition leader, this morning:

Mr. Ross. minister of lands for the came province, were present. Both addressed the caucus and assured the conservatives that British Columbia at the sections would send the manual affairs copies of the conservative delegation to Ottawa. The line of action in fighting the metiprocity proposals was discussed. There was a unanimous resolve and conclusion to offer a firm and determined resistance to those proposals to the bitter end. The conservative party will make no trace on this question, which involves the national existence of the country and gravely affects its festions to the empire."

This well known that many young women take employment as nurse girls," wrote Mr. Korbby, "and that they contribute out of their earnings to the support of the government. Are these young women to be forever excluded from polities occiety because they have taken employment? It may be so in England, and in the Beacon Hill and the secretary's "solicitude for the young lady would probably have been more appreciated at the time when the embarrassment was not manifestly more yours than hera."

ARREST OF THREE BANKERS ORDERED

Illinois Senate Takes Drastic Action Against Lorimer Witnesses.

Springfield, III., April 26.—By a vote of 40 to 7, the Illinois senate tonight ordered the arrest of Edward Tilden, George M. Benedict and William G. Cummings of Chicago, and their appearance before the senate to show cause why they should not be punished for contempt.

The alleged contempt consists in the refused of the three men, who are bankers, to submit as evidence before the senate committee that is investigating bribery, the bank recorded their customers. It has been alleged that these bank books might prove some of the accounts given of money having been subscribed toward the election of William Lorimer as United States senator.

Under oath all three have dealed any knowledge of any such funds and have sworn that their accounts show nothing bearing on the subject. They plended that to show the bank secounts would be unjust to the customers.

The question of contempt was argued at length before the senate today with the result that the arrest of the men was voted.
